I am writing to express my interest in the Steuerberater position available through Taxtalente.de for a partner firm in Bad Neuenahr-Ahrweiler. While my professional background is in software engineering, I bring a strong orientation toward digital workflows, careful and efficient work habits, and clear communication skills that are directly relevant to this role.

Through my work as a Web Developer, I have built and maintained scalable web applications using Laravel, Next.js, and modern JavaScript frameworks. I have implemented secure authentication systems, role-based access control, and payment integrations. I am comfortable working with databases, APIs, and deployment pipelines, and I adapt quickly to new tools and technologies.

One area that particularly interests me is the emphasis on digital processes and modern equipment in the partner firm. I have experience working with Linux servers, Docker, CI/CD pipelines, and cloud platforms like AWS and Google Cloud. I am confident I can contribute to maintaining efficient, technology-supported workflows in the office.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills can support your partner firm’s operations. Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
