I am writing to apply for the Entry Level Administrative Assistant position at ReLyticx HR. This role caught my attention because it offers a strong foundation in administrative support and digital operations, which aligns with my interest in building practical skills in a structured remote environment.

Through my work as a software engineer, I have developed strong computer skills and a disciplined approach to organizing information. I am comfortable working with spreadsheets, maintaining accurate records, and following structured workflows. I pay close attention to detail and take consistency seriously when handling repetitive tasks.

One area that particularly interests me is the opportunity to support internal teams by keeping information organized and accessible. In previous roles, I regularly updated documentation, tracked progress across tasks, and communicated clearly with team members. These habits translate naturally into the responsibilities outlined for this position.

In addition to my technical background, I work effectively across teams and communicate clearly with both technical and non-technical colleagues. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and remote environments.

I have attached my CV for your review. I would welcome the chance to discuss how I can contribute to the smooth operation of your team.

Sincerely,

Md Shahanur Islam Shagor
