I am writing to apply for the Supervisora de Operaˆ§ˆµes e Reservas Remoto position at PANROTAS. The role's focus on operational excellence, team coordination, and process optimization aligns with my experience in building and managing efficient digital systems.

Through my work as a Web Developer, I have developed strong skills in analyzing workflows, improving system performance, and coordinating with multiple stakeholders. I have experience managing priorities, maintaining clear communication across departments, and ensuring that projects are delivered on time and within scope.

One area that particularly interests me is the opportunity to supervise team operations and drive process improvements. In my previous roles, I have been responsible for optimizing database queries, implementing caching strategies, and streamlining deployment pipelines. These experiences have given me a practical understanding of how to identify bottlenecks, implement solutions, and monitor results.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
