I am writing to apply for the Operations & Client Manager position at IMMO PICTURES. Your focus on quality, efficiency, and real value for clients in the media production space stands out to me. I am drawn to the opportunity to manage operations, coordinate teams, and grow into a leadership role within a company that values both structure and long-term thinking.

While my background is in software engineering, my day-to-day work has always involved operational coordination and client management. In my previous roles, I was responsible for managing project timelines, communicating with stakeholders, and ensuring smooth delivery from start to finish. I am comfortable taking ownership of workflows and maintaining clear documentation that teams can actually rely on.

Client communication has been a central part of my work. I have handled client inquiries, led onboarding conversations, and maintained ongoing relationships with both individuals and businesses. I am confident on the phone and prefer to resolve matters directly rather than leaving them open. I also bring strong English skills and a technical mindset that helps me understand digital tools and systems quickly.

I am looking for a role where I can take real responsibility, contribute to process improvements, and grow over time. The prospect of working closely with your leadership team and helping scale operations is exactly the kind of challenge I want. I am based in Voronezh, Russia, and am willing to relocate to Cologne for this opportunity.

I have attached my CV for your review. I would welcome the chance to speak with you about how I can contribute to IMMO PICTURES.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
