I am writing to apply for the Sachbearbeiter (gn) position in the Marktfolge Passiv department at Volksbank Raiffeisenbank Fˆ…rstenfeldbruck eG. Your cooperative bank's focus on innovation and long-term employee development aligns with my own approach to professional growth and reliable service.

Although my professional background is in software engineering rather than banking, I bring a systematic and detail-oriented working style that is directly applicable to the responsibilities of this role. My experience developing full-stack applications has required me to manage complex data workflows, maintain accuracy across multiple concurrent tasks, and follow structured processes to ensure consistent results.

In my previous work as a Web Developer, I handled tasks that demanded precision, organization, and the ability to work independently. I managed data processing pipelines, maintained customer records, and coordinated with different teams to ensure smooth operations. These responsibilities have prepared me to handle the varied administrative tasks described in your job posting, including card processing, tax documentation, address management, and customer verification.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my analytical mindset, willingness to learn, and commitment to accuracy would allow me to contribute meaningfully to your team. I have attached my CV for your review and would welcome the opportunity to discuss how my skills can support the operations at Volksbank Raiffeisenbank Fˆ…rstenfeldbruck eG.

Sincerely,

Md Shahanur Islam Shagor
