I am writing to apply for the Assistenz fˆ…r Kundenkontakt und Beratungsvorbereitung position at Finanzkanzlei Nittendorf. Your description of a role focused on customer contact, data management, and supporting advisors in their daily work caught my attention. I am looking for a part-time opportunity where I can contribute meaningfully while continuing to grow professionally, and this role seems like a strong fit for what I value.

What stands out to me about this position is the emphasis on working closely with people rather than performing isolated administrative tasks. In my previous work as a Web Developer, I regularly interacted with clients, gathered requirements, and prepared structured information for project discussions. I am comfortable communicating clearly, organizing data, and ensuring that details are accurate before they reach decision-makers.

I appreciate that this role requires a structured and reliable approach. In my experience, I have been responsible for maintaining customer data, preparing documentation, and supporting team members with organizational tasks. I am used to working in environments where preparation and follow-through matter, and I take ownership of the quality of my work.

In addition to my professional experience, I work effectively across teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am motivated to take on responsibility, learn quickly, and contribute to your team’s success. I have attached my CV for your review and would welcome the opportunity to discuss how I can support your advisors in their daily work.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
