I am writing to apply for the Senior Online Marketing Manager position at KD Kellerdigital GmbH. Your focus on strengthening skilled trades in Germany through modern employer branding and digital campaigns is a compelling mission, and I am interested in contributing to your team.

My professional background is in software engineering, where I have spent over four years building web applications and managing full product delivery cycles. This experience has given me a strong analytical foundation, a disciplined approach to problem-solving, and the ability to manage complex workflows independently. I am used to taking ownership of results and making decisions based on data.

One area that particularly interests me is the combination of client communication and campaign optimization described in the role. In my previous work as a Web Developer, I was responsible for direct client communication, understanding business requirements, coordinating with design teams, and ensuring timely delivery. I am comfortable with proactive client management, reporting, and working toward measurable outcomes.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills can support your team in Frankfurt.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
