I am writing to apply for the Manager HR Business Partner position at LinkedIn. Your mission to create economic opportunity through professional connections is something I find genuinely compelling, and I appreciate the emphasis on trust, inclusion, and employee growth that defines LinkedIn's culture.

My professional experience has been in software engineering, where I have worked across teams to deliver complex systems. This work has required me to develop strong cross-functional collaboration skills, communicate clearly with both technical and non-technical stakeholders, and exercise sound judgment when navigating ambiguous situations. I have learned to prioritize effectively, manage multiple projects simultaneously, and maintain high standards of quality and attention to detail.

One area that particularly interests me is the focus on risk mitigation and operational excellence in this role. In my previous work, I have been responsible for ensuring system reliability and consistency across deployments, which has given me a practical understanding of how to establish processes, monitor outcomes, and drive continuous improvement. I am comfortable working in matrixed environments and collaborating with diverse teams to achieve shared goals.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background in cross-functional collaboration, risk awareness, and operational discipline can contribute to the HRBP Consulting and Solutions team at LinkedIn.

Sincerely,

Md Shahanur Islam Shagor
