I am writing to apply for the Temp HR Coordinator, People Operations role at Headspace. Your mission to provide accessible mental health support through evidence-based content and innovative technology is genuinely impactful, and I would welcome the opportunity to contribute to a team that values accuracy, care, and ownership.

Although my professional background is in software engineering, I have developed strong organizational and process-oriented skills through managing complex, multi-step projects. I am comfortable working in environments where not everything is predefined, and I know how to find answers, ask the right questions, and follow through until tasks are complete.

In previous work, I have maintained data integrity across systems, coordinated with multiple stakeholders, and documented workflows to ensure consistency and clarity. I am confident I can apply these same skills to support the employee lifecycle, manage People Ops inquiries, and assist with HR administrative tasks at Headspace.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application, and I look forward to the possibility of contributing to the Headspace team.

Sincerely,

Md Shahanur Islam Shagor
