I am writing to apply for the Mitarbeiter Marktforschung im Homeoffice position at Francavilla Giuseppe. Your focus on structured data collection and objective evaluation of digital content for global brands aligns with my approach to precise, detail-oriented work.

Through my experience as a software engineer, I have developed strong skills in following detailed project guidelines, maintaining data integrity, and delivering accurate results within deadlines. I am comfortable working independently in a remote setting and managing my own time effectively.

In previous work, I have handled tasks that require careful attention to instructions, systematic data handling, and clear reporting. I am confident I can apply the same discipline to your market research projects.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
