I am writing to express my interest in the Steuerberater (m/w/d) position at Taxtalente.de for a partner firm in Gˆ¶llheim. While my professional background is in software engineering rather than tax consulting, I bring strong analytical thinking, careful attention to detail, and a proven ability to work efficiently with digital systems.

What stands out to me about this opportunity is the emphasis on a digital-first working environment and the flexibility to shape responsibilities based on individual strengths. I am comfortable working with modern digital tools and processes, and I approach tasks with a methodical and thorough mindset.

In my previous work as a web developer, I was responsible for building and maintaining complex systems that required precision, clear documentation, and consistent communication with stakeholders. I am used to working independently while also coordinating effectively within teams.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my skills and working style could contribute to your partner firm in Gˆ¶llheim.

Sincerely,

Md Shahanur Islam Shagor
