I am writing to express my interest in the Steuerberater (m/w/d) position at Taxtalente.de for your partner firm in Eggenstein-Leopoldshafen. I understand that you are looking for a professional who combines careful, efficient work with openness to digital processes, and I believe my background in software engineering and analytical problem-solving aligns well with this opportunity.

Through my professional experience as a web developer, I have developed a strong ability to work with structured data, build secure systems, and automate repetitive tasks. I am comfortable with digital tools and enjoy optimizing workflows for accuracy and efficiency. These skills translate naturally into the careful review and preparation of financial statements and tax declarations.

One area that particularly interests me is the emphasis on digital processes and modern tools in your partner firm. I have hands-on experience with Linux servers, Docker, CI/CD pipelines, and database management, which means I can quickly adapt to any digital environment and contribute to maintaining efficient, paperless operations.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my analytical approach and digital fluency could benefit your partner firm in Eggenstein-Leopoldshafen.

Sincerely,

Md Shahanur Islam Shagor
