I am writing to express my interest in the Steuerberater position at Taxtalente.de for one of their partner firms in Illingen.

My background is in software engineering, where I have spent over four years building full-stack web applications and automation systems. I am comfortable with digital tools and workflows, and I have experience designing secure, scalable platforms that handle complex data and user interactions efficiently.

In my professional experience as a Web Developer, I have built and maintained applications using Laravel, Next.js, and React, with a focus on authentication, role-based access control, and payment gateway integration. I have also deployed systems on Linux servers using Docker, Nginx, and CI/CD pipelines, ensuring reliability and performance in production environments.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills could contribute to your partner firm in Illingen.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
