I am writing to apply for the Customer Support Specialist position at Recruitlytics Hiring. Your focus on delivering professional, empathetic support to Arabic-speaking customers aligns with my own approach to clear communication and problem-solving.

While my professional background is in software engineering, I have developed strong communication and interpersonal skills through years of client-facing work. In my previous roles as a web developer, I regularly collaborated with stakeholders, gathered requirements, explained technical solutions, and resolved issues. This experience taught me to listen carefully, communicate clearly, and handle inquiries with patience and professionalism.

I am comfortable working independently in a remote environment and have reliable high-speed internet, a dedicated workspace, and strong computer skills. I am fluent in Bengali and English, with working knowledge of Russian and Hindi, and I enjoy collaborating in multilingual settings.

I am a quick learner and detail-oriented. I approach every interaction with empathy and a genuine desire to help. I am confident I can contribute positively to your team and provide quality support to your customers.

I have attached my CV for your review. I look forward to the opportunity to discuss how I can support Recruitlytics Hiring.

Sincerely,

Md Shahanur Islam Shagor
