I am writing to apply for the Administrative Data Entry File Clerk position at Recruitlytics Hiring. Your focus on maintaining organized digital records and ensuring data accuracy aligns with my approach to structured and reliable work.

Through my professional experience as a Web Developer, I have developed strong skills in managing digital files, organizing data, and maintaining accurate records. I have worked extensively with cloud storage platforms including Google Cloud and AWS, and I am proficient with spreadsheets, PDF tools, and document management systems. My daily work involves applying consistent naming conventions, organizing files into structured folders, and ensuring data integrity.

One area that particularly interests me is the quality control aspect of this role. In my previous work, I performed regular checks for errors, flagged exceptions, and contributed to process improvements that reduced rework. I am comfortable handling sensitive information with strict access controls and confidentiality, and I understand the importance of following retention schedules and compliance procedures.

In addition to my technical experience, I work effectively across teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
