I am writing to apply for the File Clerk position at Recruitlytics Hiring. The role's focus on maintaining accurate, organized, and compliant digital records aligns with my approach to structured work and attention to detail.

Through my experience as a Web Developer, I have developed strong organizational habits that directly apply to document management. I am comfortable working with file systems, spreadsheets, PDFs, and collaboration tools. I understand the importance of applying consistent naming conventions, maintaining folder structures, and ensuring data integrity across multiple repositories.

One area that particularly interests me is the quality control aspect of this role. In my previous work, I regularly performed checks for errors, flagged exceptions, and contributed to process improvements that reduced rework. I am confident I can apply the same diligence to daily spot checks, error logging, and maintaining audit-ready trails.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my organizational skills and attention to detail can contribute to the Recruitlytics Hiring team.
