I am writing to apply for the Call Center Mitarbeiter (w/m/d) Kundenbindung position at IONOS SE. IONOS is a leading European provider of cloud infrastructure and hosting services, and I appreciate the company's focus on building lasting customer relationships through high-quality service.

Although my professional background is in software engineering, I have developed strong communication and interpersonal skills through years of client-facing work. In my previous roles as a Web Developer, I regularly communicated with stakeholders, gathered requirements, explained technical solutions, and addressed concerns. This experience has taught me how to listen actively, build trust, and clearly articulate value.

One area that particularly interests me is the opportunity to work directly with customers to maintain and strengthen relationships. I am comfortable communicating via phone, email, and chat, and I am confident in my ability to understand customer needs, present solutions clearly, and help retain their business. I am also proficient with various IT tools and can quickly adapt to new systems.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application. I look forward to the possibility of contributing to the IONOS team.

Sincerely,

Md Shahanur Islam Shagor
