I am writing to apply for the Video Cutter (m/w/d) Short Format position at SMN SCALE. Your focus on creating high-performing ads for leading e-commerce brands in Germany is exactly the kind of creative environment where I want to contribute.

Although my primary expertise is in software engineering, I bring a unique advantage: practical experience with AI tools and automation. In my project work, I have integrated AI-based image processing and automation pipelines, skills that directly apply to using AI tools for motion graphics and video editing. I understand how to leverage technology to streamline creative workflows and produce consistent, high-quality output.

I am comfortable working independently and remotely, and I adapt quickly to feedback and changing trends. My experience building full-stack applications has taught me to work methodically, meet deadlines, and communicate clearly with team members. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international teams.

I am eager to apply my technical mindset and creative problem-solving to help SMN SCALE produce ads that truly generate results. I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
