I am writing to apply for the Creative Allrounder / Junior Art Director (m,w,d) II Marketing role at nˆ…chtern. Your work in building Germany's first alcohol-free Spˆti and growing a distinctive brand in the D2C space is genuinely interesting. The opportunity to shape the complete visual identity of a scaling brand appeals to me.

While my professional background is in software engineering, I have developed a strong design sensibility through years of building user interfaces and digital products. I am proficient in Figma, which you mention as a valuable tool, and I have hands-on experience translating brand guidelines into cohesive visual systems across web and mobile platforms.

In my professional experience as a Web Developer, I designed responsive, SEO-friendly interfaces using Next.js, Tailwind CSS, and Material UI. I worked closely with stakeholders to ensure every visual element aligned with brand identity, from color palettes and typography to layout consistency. This required the same attention to brand detail and hands-on execution that this role demands.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV and portfolio for your review. I would welcome the chance to discuss how my design-oriented approach and technical skills can contribute to nˆ…chtern's visual growth.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
