I am writing to apply for the Junior Paid Ads Specialist position at Cyrus Digital GmbH. Your structured training program and clear development path from Junior to Senior performance marketer is exactly the kind of environment where I want to build my career in online marketing.

Although my professional background is in software engineering, I bring strong analytical skills and a data-driven mindset that directly align with performance marketing. In my previous work as a Web Developer, I regularly analyzed metrics, optimized system performance, and made data-backed decisions to improve outcomes. I enjoy working with numbers and have a careful, detail-oriented approach to problem-solving.

What stands out to me about Cyrus Digital is the commitment to training junior talent from the ground up. The opportunity to learn from experienced colleagues through twice-weekly internal training and gradually take on account responsibility for real D2C brands is exactly what I am looking for. I am ready to start as a hands-on executor and grow into a strategic sparring partner for your clients.

I currently live in Munich and have very good German language skills, which allows me to communicate effectively with your team and clients. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to Cyrus Digital’s team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
