I am writing to apply for the Head of IT and Digitalization position at Bˆ¶sch Boden Spies. The opportunity to lead IT strategy, drive digital transformation, and implement AI-driven automation in a company with a clear focus on measurable business value is exactly the kind of challenge I am looking for.

My technical foundation spans full-stack development, cloud infrastructure, and AI integration. I have worked extensively with Laravel, Next.js, Node.js, and React to build scalable web applications, and I have deployed and maintained production systems on AWS, Google Cloud, and Digital Ocean using Docker, Nginx, and CI/CD pipelines. This experience gives me a practical understanding of modern IT infrastructure, cloud services, and the operational requirements needed to ensure stable and secure IT operations.

One area that particularly interests me is the integration of AI and automation into business processes. I have developed AI-powered applications using OpenAI and Replicate APIs, built intelligent assistants, and implemented automated workflows. I understand how to structure data as a foundation for analytics and AI applications, which aligns with your goal of building a structured data basis for analysis and AI use cases.

In my professional experience as a Web Developer, I have delivered projects that required close collaboration with stakeholders, clear communication across teams, and a pragmatic approach to problem-solving. I have worked with authentication systems, role-based access control, payment gateways, and real-time features, and I am comfortable managing both technical implementation and strategic planning.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments. I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to Bˆ¶sch Boden Spies.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
