I am writing to apply for the Personalreferent HR Administration & Arbeitnehmerˆ…berlassung (m/w/d) position at MY Humancapital GmbH in Munich. While my professional background is in software engineering, I have developed strong organizational, documentation, and process-management skills that are directly transferable to this HR role.

In my previous work as a Web Developer, I was responsible for managing complex project workflows, coordinating with multiple stakeholders, maintaining detailed documentation, and ensuring that every step of a process was executed accurately and on time. These responsibilities required the same level of precision, discretion, and structured thinking that this HR position demands.

One area that particularly interests me is the opportunity to support the entire employee lifecycle, from onboarding to offboarding. My experience building and maintaining systems that handle user data, authentication, and role-based access has given me a deep appreciation for the importance of accurate record-keeping, data integrity, and confidentiality.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application. I look forward to the possibility of contributing to your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
