I am writing to apply for the Trainee Sales position at Firstlead GmbH. Your company's focus on technology, data, and innovation within the affiliate marketing space is impressive, and I am interested in contributing to the growth of ADCELL.

Although my professional background is in software engineering, I have developed a strong foundation in communication, client management, and goal-oriented execution. In my previous roles as a Web Developer, I regularly collaborated with stakeholders, presented technical solutions, and managed the full cycle of project delivery from initial requirements to deployment. This experience has given me the ability to understand client needs, communicate clearly, and drive processes forward.

I am a quick learner and a problem solver by nature. I am comfortable with direct communication, handling objections, and staying focused on achieving targets. I am looking to transition my skills into a sales environment where I can apply my structured approach and technical understanding to help acquire and retain business clients.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to bring my energy, adaptability, and commitment to your sales team. I have attached my CV for your review and look forward to discussing how I can contribute to the continued success of ADCELL.

Sincerely,

Md Shahanur Islam Shagor
