I am writing to apply for the Sachbearbeiter Personalmanagement position at E-Service-Check. Your company plays an important role in ensuring electrical safety across Germany, and I am interested in contributing to your team in Laucha.

Although my professional background is in software engineering, I have developed strong organizational and documentation skills through managing complex projects, digital records, and secure data systems. I am comfortable working with digital tools and maintaining accurate, compliant records.

In my previous work, I was responsible for maintaining documentation, tracking project timelines, and coordinating with multiple stakeholders. These experiences have given me a structured approach to managing information, meeting deadlines, and communicating clearly with team members.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments. I am also actively improving my German language skills.

I have attached my CV for your review. I would welcome the opportunity to discuss how my skills and work ethic can support your HR team.

Sincerely,

Md Shahanur Islam Shagor
