I am writing to apply for the Vertriebsassistenz position at Krauss GmbH. Your agency's market-leading position and focus on top-brand clients from industry and trade caught my attention, and I am interested in contributing to your team in Landsberg am Lech.

Although my professional background is in software engineering, I bring strong computer literacy and a structured approach to work that directly supports the responsibilities of this role. I am comfortable working with databases, digital platforms, and modern software tools, which would allow me to quickly become proficient with your customer database system.

One area where I can contribute immediately is in appointment scheduling and customer communication. Through my experience working with clients and stakeholders in previous roles, I have developed reliable organizational habits and clear communication skills. I am comfortable handling inquiries, coordinating schedules, and maintaining accurate records.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am a reliable, service-oriented person who takes responsibility seriously. I would welcome the opportunity to discuss how my skills and work ethic can support your sales team. I have attached my CV for your review.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
