I am writing to apply for the Business Development Manager Yacht Insurance position at Sealogy GmbH. Your focus on building strong, trust-based partnerships with the international yachting industry and your commitment to partner success align with how I approach professional relationships.

What stands out to me about Sealogy is your long-standing expertise in insuring high-quality yachts and your emphasis on partner success as a cornerstone of your strategy. This customer-focused, partnership-driven approach is one I respect and have experience supporting through clear communication and structured collaboration.

In my previous work as a Web Developer, I collaborated closely with international clients and stakeholders to understand their needs, onboard them onto new systems, and ensure smooth adoption of complex workflows. I regularly communicated technical concepts to non-technical partners, trained users on new platforms, and maintained long-term relationships built on trust and reliability.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my communication skills, structured approach to partnership management, and enthusiasm for building lasting professional relationships would allow me to contribute meaningfully to your team. I have attached my CV for your review and would welcome the opportunity to discuss how I can support Sealogy’s growth.

Sincerely,

Md Shahanur Islam Shagor
