I am writing to express my interest in the Agile Revenue Partner Program at Holliday Systems Inc. The opportunity to apply Agile thinking to real business transformation, especially for entrepreneurs and small businesses, is exactly the kind of work I want to be part of.

My professional experience has been rooted in project delivery and execution. Working as a Web Developer, I collaborated with stakeholders to scope work, track progress, and ensure features were delivered on time. I facilitated communication between technical and non-technical team members, maintained clear documentation, and followed through on commitments. These skills translate directly to supporting client onboarding, meeting facilitation, and project tracking.

One area that particularly interests me is helping organizations improve their systems and workflows. I have hands-on experience with process improvement, documentation, and SOP creation. I am comfortable working with business owners and understand the importance of accountability and disciplined execution in a client-facing environment.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to be trained in the HSI way of delivery and contribute as a trusted partner. My CV is attached for your review. I would welcome the opportunity to discuss how I can support HSI’s growing client base.

Sincerely,

Md Shahanur Islam Shagor
