I am writing to apply for the Virtual Executive Assistant position at Recruitlytic Hiring. Your emphasis on supporting executive operations with professionalism, organization, and clear communication aligns with how I approach my own work.

Through my experience as a software engineer, I have developed strong organizational and coordination skills. I have managed complex project workflows, tracked multiple deadlines simultaneously, and ensured that all tasks were completed on time. My background has taught me to prioritize effectively, communicate clearly with stakeholders, and maintain attention to detail even when handling competing priorities.

One area that particularly interests me is the responsibility of managing executive calendars and communications. In my previous work, I regularly coordinated with team members across different time zones, scheduled meetings, and maintained clear documentation of decisions and action items. I am comfortable using digital collaboration platforms and can adapt quickly to new tools and workflows.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my organizational abilities, professionalism, and remote work experience make me a strong candidate for this role. I have attached my CV for your review and look forward to the opportunity to contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
