I am writing to express my interest in the Niederlassungsleiter GU SF-Bau /Industriebau position at Marwio GmbH. After reviewing the job description, I understand that this role requires extensive experience in industrial construction project management, team leadership, and commercial steering, which are outside my professional background.

My expertise lies in full-stack web development, AI engineering, and autonomous systems. I have worked on building scalable web applications, real-time communication systems, and AI-powered platforms. However, I do not have the required qualifications or experience in construction management, industrial project oversight, or leading a team of 20 employees in a building context.

I respect the depth of experience this position demands and would not want to misrepresent my capabilities. I believe in being straightforward about my fit for a role.

Thank you for considering my application. I wish you and Marwio GmbH continued success in finding the right leader for this important position.

Sincerely,

Md Shahanur Islam Shagor
