I am writing to apply for the People & Recruiting Manager position at 8P Steuerberatung - Wirtschaftsprˆ…fung - Rechtsberatung. Your focus on talent recognition, modern recruiting strategies, and shaping company culture aligns with my professional approach to building effective teams and processes.

Through my work as a Web Developer, I have gained substantial experience collaborating closely with leadership, managing full-cycle project workflows, and coordinating with external partners. These responsibilities required clear communication, structured onboarding of new team members, and continuous process improvement â skills that transfer directly to recruiting and people management.

One area that particularly interests me is developing modern candidate experiences and HR structures. In my previous roles, I contributed to improving team workflows, documentation practices, and cross-functional collaboration. I am comfortable working with digital tools and adapting processes to make them more efficient and future-ready.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background in structured collaboration, process development, and team coordination can contribute to your recruiting and people operations.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
