I am writing to express my interest in the Steuerberater (m/w/d) position in Zwickau, as advertised by Taxtalente.de. While my professional background is in software engineering rather than tax consulting, I bring a strong affinity for digital workflows, a meticulous and efficient working style, and a genuine interest in contributing to a forward-thinking firm.

Through my work as a full-stack and AI engineer, I have developed a disciplined approach to handling complex, detail-oriented tasks. I am accustomed to working with precision, ensuring data integrity, and maintaining clear documentation. These habits translate directly into the careful and conscientious work required in tax advisory.

I am open to a digital working environment and have hands-on experience with modern tools and platforms. I communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am looking for a role where I can grow, take on responsibility, and contribute to a team that values quality and collaboration. I would welcome the opportunity to discuss how my skills and working style could align with your partner firm’s needs.

I have attached my CV for your review. Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
