I am writing to apply for the Projektassistenz & Content-Management (m/w/d) - Fokus SEO position at Sumax. The opportunity to support an international project through content management and SEO optimization aligns well with my technical background and attention to detail.

Through my experience as a web developer, I have worked extensively with content management systems, including Strapi. This has given me practical knowledge of how to structure digital content, manage media assets, and maintain consistency across pages. I understand the importance of clean metadata, proper image alt-texts, and internal linking for effective on-page SEO.

One area that particularly interests me is the quality control aspect of this role. In previous projects, I have been responsible for reviewing content for formal accuracy and consistency before publication. I approach this work methodically, ensuring that every detail is correct even when working under time constraints.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to your team at Sumax.

Sincerely,

Md Shahanur Islam Shagor
