I am writing to apply for the PR- und Social Media Manager position at We are SAVVY. Your agency's focus on shaping the next growth phase for brands in retail, tourism, lifestyle, and medical technology is exactly the kind of environment where I want to contribute.

What stands out to me about We are SAVVY is the emphasis on ownership and hands-on collaboration within a small team. I have always worked best in environments where ideas matter more than hierarchy, and where everyone takes responsibility for outcomes. This aligns directly with how I approach my work.

In my professional experience as a Web Developer, I have built and managed digital platforms that required content strategy, SEO optimization, and user engagement. I developed responsive, SEO-friendly interfaces using Next.js and Tailwind CSS, and I optimized content for search visibility through structured data and performance tuning. These skills translate directly into supporting your social media and content creation workflows.

I am also comfortable with content creation tools and understand how to manage visual assets, from image editing to video content. My technical background allows me to approach digital communication with a structured, results-oriented mindset. I am fluent in English and Bengali, have working knowledge of Russian and Hindi, and I am actively improving my German to communicate effectively with local media and partners.

I am eager to bring my technical and organizational skills to We are SAVVY and help shape your next phase of growth. I have attached my CV for your review and look forward to the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
