I am writing to apply for the Lifeguard position at Accor. While my professional background is in software engineering, I bring strong discipline, situational awareness, and a calm approach to safety-focused responsibilities that I believe translate well to this role.

I have spent years working in environments that require constant attention, quick decision-making, and clear communication under pressure. These qualities are directly relevant to monitoring pool areas, enforcing safety rules, and responding effectively in emergency situations.

I am comfortable interacting with guests and addressing concerns professionally, and I work well within teams to ensure a positive experience for everyone. I am fully prepared to undergo lifeguard training, first aid and CPR certification, and any other requirements needed to meet Accor's standards.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and welcome the opportunity to discuss how I can contribute to the Accor team.

Sincerely,

Md Shahanur Islam Shagor
