I am writing to apply for the Attachˆ' Juridique F/H position at AFE (Audit Finance Expert). While my professional background is in software engineering, I bring strong organizational discipline, attention to detail, and a structured approach to managing complex workflows that I believe would serve this role well.

Through my work as a web developer, I have developed the ability to manage multiple concurrent tasks, track detailed requirements, and maintain accurate documentation across projects. I am comfortable working with structured data, following precise procedures, and ensuring that nothing falls through the cracks.

I am also highly adaptable when it comes to learning new tools and software. I have worked with a wide range of technologies and can quickly become proficient with Pack Office, Polyacte, or any other systems used in the role.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my organizational skills and attention to detail can contribute to Legiz Avocats and the Cohortis group.

Sincerely,

Md Shahanur Islam Shagor
