I am writing to apply for the HR Business Partner (m/w/d) in VZ position at AXS Germany GmbH. Your work as a global ticketing provider for major venues and events is impressive, and I am drawn to the opportunity to contribute to a growing international People & Culture function.

While my professional background is in software engineering rather than HR, I bring strong cross-functional collaboration skills and experience working effectively across international teams. In my previous roles, I have worked closely with stakeholders at different levels to understand business needs, translate them into clear action plans, and deliver results in structured, organized ways. This has given me a practical understanding of how to support teams through change and align local priorities with broader organizational goals.

One area that particularly interests me is culture development and integration. Through my work with diverse teams across Bangladesh, Russia, and Europe, I have learned how to navigate cultural differences, communicate clearly across time zones, and build trust with colleagues from varied backgrounds. I am comfortable working independently, managing multiple priorities, and maintaining a solutions-oriented approach even under pressure.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills and experience could support AXS Germany GmbH in achieving its People & Culture objectives.

Sincerely,

Md Shahanur Islam Shagor
