I am writing to apply for the Junior Google Performance & Analytics Manager position at eFLY Marketplace Services GmbH. Your focus on operational campaign management, precise monitoring, and structured reporting aligns with my analytical approach and attention to detail.

Through my work as a Web Developer, I have developed a strong ability to monitor system performance, track key metrics, and prepare clear reports for stakeholders. I am comfortable working with data, ensuring accuracy, and maintaining organized workflows. These skills translate well into managing Google Ads campaigns and performance data.

One area that particularly interests me is the opportunity to learn Google Ads and analytics tools from the ground up. I am a quick learner with a structured working style. I double-check my work carefully and take responsibility for accuracy. I am confident I can quickly become reliable in setting up campaigns, monitoring budgets, and preparing performance dashboards.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
