I am writing to express my interest in the Steuerberater position at Taxtalente.de. While my professional background is in software engineering rather than tax consulting, I bring strong technical expertise that aligns well with a modern, digitally-driven tax advisory environment.

Through my work as a Web Developer, I have built and maintained full-stack applications using Laravel, Next.js, React, and MySQL. I have implemented role-based access control, authentication systems, and secure payment integrations. I am comfortable working with RESTful APIs, real-time features, and deployment on Linux servers with Docker and Nginx.

One area that particularly interests me is the emphasis on a digital Arbeitsweise. I have experience designing scalable systems, optimizing database performance, and integrating third-party services. I am confident I can contribute to a firm that values modern tools and efficient processes.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
