I am writing to express my interest in the Head of Sales position for your client in the Sachwert- und Finanzhandel sector. This role stands out because it requires someone who can build scalable, data-driven sales systems from the ground up, and my background in software engineering and process automation aligns well with that challenge.

What draws me to this opportunity is the chance to apply my technical and analytical skills to transform a large lead base into a repeatable, measurable revenue system. I have strong IT and CRM affinity, experience with KPI dashboards, and a practical understanding of how automation and AI can improve lead quality and conversion rates. I am comfortable working with data pipelines, reporting structures, and process optimization.

Through my professional experience as a Web Developer, I have built full-stack applications that include real-time features, role-based access control, and comprehensive reporting dashboards. I have worked with databases, API integrations, and deployment pipelines, which gives me a solid foundation for understanding how sales tools, CRM workflows, and data systems operate under the hood. I am used to analyzing performance metrics and creating systems that turn raw data into clear, actionable insights.

One area that particularly interests me is the opportunity to coach and develop a young sales team. I have experience collaborating across multidisciplinary teams and communicating clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy working in international and cross-cultural environments.

I am ready to take on the operational and strategic responsibility for building out the sales structure, from lead prioritization and CRM workflows to team coaching and performance tracking. I have attached my CV for your review and would welcome the chance to discuss how I can contribute to your client’s growth.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
