I am writing to apply for the Multi Trader position at B&R HOME. I understand you are looking for someone reliable who can stay on a building site and handle internal jobs.

While my professional background is in software engineering, I bring strong discipline, a quick learning ability, and a problem-solving mindset that I believe transfers well to hands-on work. I am comfortable following instructions, working independently, and staying focused on tasks until completion.

I am a hard worker who adapts quickly to new environments. Whether it is learning new tools or understanding site protocols, I approach every task with the same commitment to quality and reliability.

In addition to my technical experience, I work effectively across teams and communicate clearly with colleagues. I am fluent in Bengali and English, with working knowledge of Russian and Hindi.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
