I am writing to apply for the Skilled Operator blue shift days position at Princes Group. Your company's commitment to responsibly sourcing and manufacturing over 350 food and drink products is impressive, and I would be proud to contribute to your operations team in Wisbech.

Although my professional background is in software engineering, I have developed strong analytical thinking, precision, and a methodical approach to work that transfers well to operational roles. I am comfortable following structured procedures, maintaining focus during repetitive tasks, and ensuring quality standards are met consistently.

I am a quick learner who adapts easily to new tools and workflows. I understand the importance of reliability, safety, and teamwork in a production environment. I am fully available for blue shift days and committed to contributing positively to the Princes Group team.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills and work ethic can benefit your operations team.

Sincerely,

Md Shahanur Islam Shagor
