I am writing to apply for the Steuerfachangestellter / Steuerfachwirt / Bilanzbuchhalter position at CONSULTIA STEUERBERATUNGSGESELLSCHAFT MBH. Your focus on digital processes and paperless work, combined with a commitment to high-quality advisory services, stands out to me. I am interested in contributing to a team that values efficiency and modern working methods.

Through my professional experience as a Web Developer, I have built and maintained full-stack web applications using Laravel, Next.js, and Node.js. I have worked extensively with databases such as MySQL and PostgreSQL, and have integrated RESTful APIs for seamless data exchange. This technical foundation supports the kind of digitalization and process optimization that Consultia prioritizes.

A relevant example is my work on a multi-vendor e-commerce ecosystem, where I developed a Laravel-based backend with role-based access control, payment integration, and real-time notifications. This project required careful coordination between different user roles and systems, similar to managing complex client workflows in a tax advisory context.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
