I am writing to apply for the Growth Marketing Lead position at Buena. Your mission to make real estate transparent and seamless through technology is compelling, and I am drawn to the challenge of building a repeatable growth engine from the ground up.

My professional background is in full-stack software engineering, where I have spent the last four years designing and deploying scalable web applications. I have built platforms that handle authentication, payment flows, real-time data, and role-based access control using Laravel, Next.js, and cloud services on AWS. This technical foundation gives me a practical understanding of how to build the tools and systems that drive measurable growth.

One area that particularly interests me is the opportunity to partner with local Managing Directors on conversion. In previous work, I have collaborated closely with stakeholders to translate business requirements into functional systems, ensuring that lead generation efforts are supported by efficient workflows and clear data tracking. I am confident I can apply this same approach to help property managers grow predictably through both online and offline channels.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am based in Berlin and speak fluent German. I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to Buena’s growth.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
