I am writing to apply for the Online Marketing Projektmanager position at Shopwise GmbH. Your focus on combining SEO/GEO with AI tools like Claude and n8n in an e-commerce environment is what drew me to this role.

Although my professional background is in software engineering, I have practical experience integrating AI into real-world applications. I have worked with OpenAI APIs to build AI assistants for financial and real estate platforms, and I am comfortable adopting new AI tools quickly. I see the value in using AI to improve efficiency and am genuinely interested in applying this mindset to online marketing workflows.

In my previous roles as a Web Developer, I managed end-to-end project delivery, coordinated with clients and team members, and took ownership of tasks from planning through execution. I am used to structuring complex work, communicating clearly with stakeholders, and adapting to new tools and processes as projects evolve.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background in AI integration and project coordination can contribute to Shopwise GmbH.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
