I am writing to apply for the Freelance Introducer position with Bonkk. The opportunity to help CourierHubb grow by connecting businesses with a practical same-day delivery service is straightforward and appealing. I am confident in my ability to reach out to local and national businesses, explain the value of the platform, and guide them through a free sign-up process.

This role is about clear communication and consistent outreach. I am comfortable speaking with a wide range of businesses â from estate agents and law firms to florists and e-commerce sellers. I can identify companies that regularly send or receive items and explain how CourierHubb can save them time and money. I am self-motivated and comfortable working independently toward performance-based goals.

I have experience working remotely and managing my own schedule. In previous roles, I collaborated with stakeholders and delivered results without needing constant supervision. I am confident on the phone, friendly in tone, and able to build ongoing relationships with repeat clients.

In addition to my outreach skills, I communicate clearly across teams and with people from different backgrounds. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy working in international environments.

I have attached my CV for your review. I look forward to the possibility of joining the CourierHubb team and building a steady income stream through this opportunity.

Sincerely,

Md Shahanur Islam Shagor
