I am writing to apply for the Freelance Introducer role with Bonkk., representing CourierHubb. The idea of helping local businesses across the UK discover a reliable same-day courier service through simple introductions appeals to me. I appreciate that this role is about making connections rather than hard selling, and I am comfortable with a performance-based, commission-only structure.

I am a confident and friendly communicator with experience reaching out to businesses and explaining services clearly. In my previous work as a web developer, I regularly collaborated with stakeholders, clients, and team members to understand their needs and communicate technical solutions in plain language. This has given me a practical ability to listen, explain, and guide people toward useful decisions.

What stands out to me about CourierHubb is the straightforward model: businesses sign up for free, and I earn ongoing commission from their bookings. I am self-motivated and comfortable working independently, managing my own time, and consistently reaching out to offices, shops, clinics, tradespeople, and other businesses that send or receive items regularly.

In addition to my communication skills, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to growing CourierHubb’s network of business users.

Thank you for your time.

Sincerely,

Md Shahanur Islam Shagor
