I am writing to apply for the Freelance Introducer position at Bonkk. The opportunity to help businesses discover CourierHubb's same-day delivery services and build a passive income stream through referrals aligns well with my independent working style and communication skills.

What stands out to me about this role is the simplicity of the mission: contact businesses, share a referral link, and earn commission on every delivery they book. I am confident on the phone, friendly in my communication, and comfortable working independently toward targets. I am also self-motivated and target-driven, which makes this commission-based structure a natural fit.

In addition to my technical background, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to start reaching out to businesses, using the provided training materials and call scripts to introduce CourierHubb's services effectively. I look forward to the possibility of contributing to the growth of your platform.

I've attached my CV for your review.

Sincerely,

Md Shahanur Islam Shagor
