I am writing to apply for the Freelance Introducer role with CourierHubb through Bonkk. The opportunity to introduce a practical same-day delivery service to businesses across the UK and earn commission while building a passive income stream is something I find genuinely interesting.

While my background is in software engineering, I am a confident and clear communicator who is comfortable speaking with people from different industries. I am self-motivated, comfortable working independently, and I enjoy the process of explaining how a service can solve a real problem for a business.

I understand the role involves contacting a wide range of businesses, from estate agents and law firms to retailers and tradespeople. I am confident in my ability to identify businesses that regularly send or receive items, introduce CourierHubb's services, and guide them through the sign-up process. I am also comfortable building ongoing relationships with repeat clients.

In addition to my communication skills, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to CourierHubb's growth.

Sincerely,

Md Shahanur Islam Shagor
