I am writing to apply for the Freelance Introducer role at Bonkk, representing CourierHubb. I understand the core of this position is not about hard selling, but about making confident, clear introductions to businesses that can benefit from a reliable same-day courier service.

What stands out to me is the straightforward model: contact businesses, share a referral link, and earn commission on the deliveries they book. This is a role that rewards consistent effort and clear communication, and I am well-suited for that kind of independent, target-driven work.

I am a confident and friendly communicator, comfortable speaking with a wide range of businesses from estate agents and law firms to local retailers and e-commerce sellers. I am self-motivated and disciplined, which allows me to work effectively from home without direct supervision. I am also a quick learner and can easily follow provided scripts and onboarding materials to get started immediately.

In addition to my communication skills, I work effectively across different contexts and am fluent in Bengali and English, with working knowledge of Russian and Hindi. This helps me connect with a diverse range of business owners.

I am ready to start reaching out to businesses and building a passive income stream with CourierHubb. I have attached my CV for your review and look forward to the possibility of joining the team.

Sincerely,

Md Shahanur Islam Shagor
