I am writing to apply for the Handy Person position at Hawaiian, based at Cable Beach Club Resort & Spa in Broome. The opportunity to contribute to the maintenance and guest experience at a well-established resort in a unique location like Broome is genuinely appealing.

While my professional background is in software engineering, I have always approached my work with a hands-on, problem-solving mindset. I am comfortable working with tools, performing repairs, and maintaining systems in good working order. I am a quick learner and enjoy taking on a variety of practical tasks.

I understand the key responsibilities of this role include responding to guest maintenance requests, changing light fixtures, basic plumbing, repairing screens and shutters, and maintaining the cleanliness of the workshop and equipment. I am confident I can handle these duties with attention to detail and a focus on guest satisfaction.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have a current manual driver’s license and full Australian work rights. I am available to work the required rotating roster, including weekends and evening shifts. I have attached my CV for your review and look forward to the possibility of contributing to the team at Cable Beach Club Resort & Spa.

Sincerely,

Md Shahanur Islam Shagor
